

## Lazer Star Lights Boosts Power to 5 Watts with Endeavor E5 2x2 Light Bars

- The Endeavor E5 is a new, powerful 5-watt version of the popular Endeavor double row LED light bar.
- The Endeavor E5's 2x2 design is available in a spot or flood configuration.
- The universal application makes the Endeavor E5 perfect for off-road vehicles, motorcycles, trailers and even boats.

**Paso Robles, Calif. – September 16, 2015** – Lazer Star Lights' Endeavor 2x2 LED light kit is a popular choice among off-road enthusiasts who want to ride even after the sun has gone down. Now, Lazer Star is offering an even more powerful option, the 5-watt [Endeavor E5](#), to add extra brilliance to twilight and night time rides.

The double row LED light bar features two rows of two LEDs, providing a compact, easy-to-mount lighting solution. Each kit contains two light bars for a total of 4,000 Lumens, and kits come in either a spot or flood configuration.

Thanks to Lazer Star's carefully engineered housing, the Endeavor E5 lights are universal in application. In addition to off-road use on motorcycles, ATVs, UTVs and 4WD vehicles such as Jeeps, the Endeavor E5 is also a viable lighting solution for trailers and even marine vehicles.

**Endeavour E5 Features:**

- 50,000-hour life rating
- 5-watt LED technology for brilliant, long-lasting illumination
- Each 2x2 light bar produces 2,000 Lumens
- The sturdy extruded aluminum housing is paired with a polycarbonate lens
- Vertical and horizontal compatibility with Lazer Star's Slide-Trac mounts
- Dual power inputs allow the light bars to be daisy-chained
- Each light bar measures just 2.57" H x 4.12" D x 4.25" W

The Lazer Star Lights Endeavour E5 kits are available direct from [LazerStarLights.com](http://LazerStarLights.com) and through your local [Lazer Star Lights dealer](#).
